Course Description:

The Federal Emergency Management Agency (FEMA) recognizes the need to tie training programs to an established set of emergency management competencies and to a career development program through a progressive training and education system that includes the foundational-level Basic Academy. The Basic Academy provides a structured and progressive framework for acquiring the knowledge, skills, and abilities to meet the challenges of an ever-changing emergency management environment.

The Basic Academy consists of the following classroom courses:

E/L0101, Foundations of Emergency Management
E/L0102, Science of Disaster
E/L0103, Planning: Emergency
E/L0104, Exercise Design
E/L0105, Public Information and Warning

All topics areas in the Basic Academy courses are covered in the Train-the-Trainer to support a training experience that combines knowledge of all fundamental systems, concepts, and

practices of cutting-edge emergency management.
