Additional Information:

- G235 Emergency Planning is an elective course for the FEMA [APS Certificate](#).

Prerequisite:

None

Course Purpose:

This course offers training in the fundamentals of the emergency planning process, including the rationale behind planning. It will develop the capability for effective participation in the all-hazard emergency operations planning process to save lives, protect property and the environment threatened by disaster.

Course Objectives

- Describe how recent disasters have changed the way governments at all levels should plan.
- Explain how the Comprehensive Preparedness Guide (CPG) 101 helps state, local, and tribal governments determine and structure their planning requirements.
- Relate emergency planning to National Incident Management System (NIMS) compliance and integration.
- Associate planning principles and concepts to the overall planning process.
- Identify how the steps in the planning process can improve both deliberate and crisis action planning.
- Implement the planning process model for future planning efforts.
- Determine which Emergency Operations Plan (EOP) format is best suited to their jurisdictions.

Target Audience:

This course is designed for emergency management personnel who are involved in developing an effective emergency planning system.
